

UVBI, OZONE, MRT

Injectable Therapeutic Agents

Certification Workshops

Zoom Class

February 17, 2023

10am-12pm CST

Instructor:

Daniel Cullum, D.C., C.C.P.K., FAAO, APT

Cost \$395

Topics Taught

- 1. (UVBI) Ultraviolet Blood Irradiation Protocols/Procedures**
- 2. Introduction to Ozone-UVBI Protocols/Procedures**
- 3. Applications and use of (MRT) Muscle Response Testing**

Participants will learn how to set up and perform the necessary protocols and procedures to treat friends, family and patients using Ultraviolet Blood Irradiation (UVBI) and ozone (including incorporating OHT or Ozone HighDose Therapy) combination therapies.

They will also learn how to use the Aqua Pro II ultraviolet blood irradiation device to treat patients using only ultraviolet blood irradiation.

There will be a section taught on muscle response testing (MRT) which allows the practitioner to become much more proficient in knowing proper dosages, concentrations, and applications of these protocols.

Proficiency will Improve over time with the practice of utilizing muscle response testing.
